Earlier census analysis withdrawn

17 October 2026 | v21.0

The earlier Floyd 981–982 analysis was not supported by its displayed image. Its household identification and valuation comparison are withdrawn. A Spencer/Permelia entry has now been recovered under Mulberry Township. See the current dossier, S01 source catalog, and sources/reviewed/census-transcription.md. William Riley’s household and original census metadata remain under review. The original analysis remains in Git history.
